

# REXS 2025 Almadraba

## Tuesday, 7 October 2025

### Talks Tuesday Morning (09:00 - 12:15)

time	[id] title	presenter
09:00	[99] Beyond the Surface: 3D Probing of Antiferromagnets — A Journey Through Failures and Breakthroughs	SCAGNOLI, Valerio
09:35	[71] SoftiMAX-CXI: A new soft x-ray branch for scattering and diffraction methods at MAX IV	SCHWENKE, Jörg
10:00	[68] Imprinted emergent textures in amorphous rare-earth transition-metal ferrimagnets	BUETTNER, Felix
10:25	Coffee Break	
10:50	[111] Coherent x-ray studies of spontaneous fluctuations in rare earth nickelates	KUKREJA, Roopali
11:25	[58] Controlling Skyrmion Lattice Dynamics with Thermal and Magnetic Field Gradients	HESJEDAL, Thorsten
11:50	[97] Fluctuation and phase transition in amorphous FeGe thin film	ROY, Sujoy
