## Friday, 10 October 2025

### Talks Friday Morning: Talks Friday Morning (09:00 - 12:35)

time	[id] title	presenter
09:00	[65] Polarisation Analysis In Coherent X-ray Scattering Measurements	BEUTIER, Guillaume
09:25	[73] X-Ray Beams with Orbital Angular Momentum: Resonant Scattering and Coherent Imaging	SACCHI, Maurizio
09:50	[69] Soft X-ray Transmission Holography at ESRF	YAKHOU-HARRIS, Flora
10:15	Coffee Break	
10:35	[81] Magnetic nano-domain microscopy and topology-sensitive modelling in Fe <sub>3</sub> GeTe <sub>2</sub>	HOESCH, Moritz
11:00	[98] X-ray/XUV Coherence Isolated Diffraction Imaging	SARKAR, Arnab
11:25	[86] Spectroscopic Bragg Coherent Diffraction Imaging of Single Nanoparticles	SARRAZIN, Thomas
11:50	[76] Lensless coherent imaging of nanoscale magnetic domains in 2D van-der-Waals materials	PÉREZ SALINAS, Daniel
12:15	[127] Final Wrapp up - Discussion and REXS conference outlook
